

SCHEDULE G-2

TURF-RELATED FACILITIES

ANNUAL REPORT 2004

ARIZONA DEPARTMENT OF WATER RESOURCES

Facility Name: _____

Facility No.: _____

Facility Owner : _____

Contact Name: _____

Contact Address: _____

Contact Phone: _____

Rights Used at Facility:

If you received an annual use letter from a municipal provider, please submit a copy of their letter with your 2004 Annual Water Withdrawal and Use Report to validate deliveries received.

Pursuant to Chapter 6 of the Third Management Plan of your Active Management Area, all turf-related facilities are required to supply the following information. Please complete one form per turf-related facility. Instructions are listed on the reverse side of this form.

PART 1 - TURF RELATED WATER USE

Source		Entity or Water Right Number(s) Supplying Water				Amount (acre-feet)
Water, Other than stored water, withdrawn from wells						
Effluent (direct use)	• Municipal Reclaimed					
	• Other					
Surface Water not withdrawn from wells						
Recovered water (specify type of water)						
Other (specify)						
SUB-TOTAL OF TURF-RELATED WATER USE						
NON Turf-related water additional sheets may be used	Meter Readings:	Beginning:		End:		Subtract < >
	Purpose:					
TOTAL TURF-RELATED WATER USE						

PART 2 - LANDSCAPED AND WATER SURFACE AREAS CHANGES

Total turf acreage or percent overseeded _____

Has there been any landscape or water surface acreage changes at your facility? YES ☐ NO ☐

6-310 Monitoring and Reporting Requirements for Turf-Related Facilities:

An industrial user who uses water at a turf-related facility that commences watering to any new turfed acres, low water use landscaped area or water surface acres after January 1, 2004 shall submit to the director documentation of the new acres no later than 90 days after commencement of providing water to the new acres or receiving notice of these conservation requirements, whichever is later. The scale of the submitted documents, extent of turf acres, water surface acres, and low water use landscaped area must clearly be shown.

SCHEDULE G - 2

INSTRUCTIONS - TURF-RELATED FACILITIES

Note: If any information pre-printed on this form is incorrect, please make the needed corrections.
For any information not already pre-printed on this form, please follow the directions below.

Enter facility name, owner name, contact person name, contact address and phone number if not already shown.

PART 1 - TURF-RELATED WATER USE

Indicate the amount of water from any source withdrawn or diverted by you or received from another entity (e.g., a municipal provider) **used for landscape-related watering** in calendar year 2004.

The quantity of recovered water used by a turf-related facility must be reported. Enter the type and quantity of water recovered.

Metered Water Used for Purposes Other Than Turf-Related Water Use: Enter any water use for a purpose other than landscape watering (such as clubhouse use, equipment washing, nursery or swimming pool) that has been separately measured. If separately measured, this amount may be subtracted from the sub-total of water used. Meter readings may be submitted on a separate sheet if necessary along with purpose of water.

Note: Any water used by the facility for a purpose other than landscape watering that is not measured separately from the water used for landscape watering shall be counted as water used by the facility for landscape watering for the purpose of calculating the facility's compliance with its maximum annual conservation allotment.

PART 2 - TOTAL LANDSCAPED AND WATER SURFACE AREA

If any overseeding occurred during the year, enter the total acres or percent of turf acreage that has been overseeded. If acreage changed in 2004, your facility is required to submit documentation, providing exact acreage for turf, low water using landscape and water surface areas. The Department will accept the following methods for verifying acreage calculations:

1. A certified engineer's report with an accurately scaled facility map keyed to the report; or
2. An accurately scaled as-built plan of the facility with all landscaped areas and water bodies clearly identified; or
3. An accurately scaled as-built plan of the facility with all landscaped areas and water bodies clearly identified and accompanied by an aerial photograph at the same scale; or
4. Acreage calculations that have been physically measured with a measuring wheel or other measuring device and that are keyed to an accurately scaled map.

Golf courses:

- Shall individually delineate all holes at their facility.
- Provide the total length of the course as measured from the back of the tee furthest from the green, down the centerline of the hole to the center of the green.

*** Water use records should be maintained for a minimum of three (3) years.

Please contact your local Active Management Area if you need assistance completing this form.
